BONDS TO BE VOTED TO EXTEND SEWER SERVICES IN EL PASO

City Has No Funds For This Purpose at Present, So an Election Will Be Called—Waterworks Fund Is Created For the Purpose of Operating the Municipal Plant—East El Paso Improvement District Created by New Ordinance.

IT WILL be up to the voters of El Paso to supply the residence districts with adequate sewer facilities, according to the report made to the city council Thursday morning by alderman Chas. H. Leavelle.

He said that he had petitions for sewer connections in every addition in the city and the city has no funds wherewith to make these improvements at this time. Therefore a sewer bond election will be called at as early a date as possible. The exact amount required has not been determined.

The city council by resolution adopted the City's Sewer Fund.

The council created a special fund to be known as the "city water works operating fund."

The fund is to consist of all moneys and revenues now on hand, or that may be collected, from the operation of the water works. The fund is to be devoted exclusively to the payment of the expenses of operation.

Because there was no adequate ordinance designating of limiting the application of revenues derived from the water works, the ordinance was adopted under the emergency clause.

The report of the health department for the week ending Sept. 25, follows: Deaths, 20; births, 12.

There are 11 cases of typhoid fever in the city.

Condemnations included 214 pounds of meat, and 109 pounds of fruit and vegetables, two whole cow carcasses were condemned.

The sum of \$65.40 represented the collections of the department of weights and measures for August.

Joe Dunne, sanitary commissioner reported: The collections for July amounted to \$1356.75; for August, \$1356.50.

KNOBlauch RESENTS ACTION OF THE COURT

Says Judge Jackson Had No Right to Denigrate Him as the Guardian For Ellen Godsey.

"Judge Dan M. Jackson, of the 24th district court, did not have the right to parolize Ellen Godsey in the custody of myself and wife," Charles Knoblauch said Thursday.

"We have no interest in the girl one way or another," he added, "I did not want to get mixed up in the affair. My wife would not speak to the girl. We have nothing to do with her custody. Mr. Schuster, I had nothing to do with it. Mr. Schuster came to my hotel and wanted to know if I could make any cuts. Also, I told him that if the girl came, she would have to be herself. As long as she did that I told him I would take her in. The Angeles is a public hotel. The girl was paroled in the custody of Mr. Schuster, not ours."

Judge Jackson stated Wednesday morning that the girl had been paroled in the custody of Mr. and Mrs. Knoblauch and Arthur Schuster. Thursday morning the judge turned to sheriff Peyton L. Edwards and said: "What I told you." Only Mr. Schuster was present at the time that judge Jackson released the girl from the county jail.

Arthur Schuster is general manager of the Tri-State Amusement company, now operating at the Crystal Theater, where Ellen Godsey has been employed in the chorus.

JUDGE SPLITS POINT IN TRIAL OF BIXBY

Aged Architect's Evidence Will Be Permitted to Injure His Reputation; Attorney Warned.

Los Angeles, Calif., Sept. 25.—Judge Eledoso, of the supreme court, halved a point in the Bixby morality trial today and divided it between the millionaire defendant, who is striving to prove that he was the victim of a ring of girl blackmailers, and Octavio Morgan, an elderly architect, who declined to testify yesterday regarding any knowledge he might have of the Jonquil ring and its former inmates on the grounds that it might degrade him.

The court ruled that Morgan might testify, but only to such matters as would not tend to hurt a reputation of respectability. The court instructed the architect to testify, but at the same time warned attorneys that if anything were brought out to show undue intimacy in the relations of the witness with any of those concerned in the trial, the entire testimony might be stricken out.

FLIGHT OF GARROS FULL OF THRILLS

French Aviator Who Made Flights in El Paso Crosses Mediterranean and Motor Stops in Midair.

Biserta, Tunis, Sept. 25.—The great flight of Roland G. Garros, the French aviator across the Mediterranean sea from Raphael, France, to this port, a distance of 554 miles, was of a much more adventurous character than it at first appeared. The motor of his aeroplane has been taken to pieces and several serious defects were found. One of the segments was completely burned and other parts had been rendered useless.

Garros, in describing his flight, said that when about 60 miles from the French coast his motor began to work badly, and when about the same distance from Biserta it stopped altogether. He had no alternative than to vplane into the sea with the chance that he might be rescued by torpedo boats. But suddenly the motor started again and kept running until he reached land.

Made Flights in El Paso. Garros is known in El Paso, having appeared here with the International aviators, at which time he flew over Washington Park and into town, circling over the tops of the highest buildings, and also skirting along the international boundary.
